## LETTER OF TRANSMITTAL

---

THE WHITE HOUSE, April 7, 1997.

*To the Senate of the United States:*

With a view to receiving the advice and consent of the Senate to ratification, I transmit herewith the Grains Trade Convention and Food Aid Convention constituting the International Grains Agreement, 1995, open for signature at the United Nations Headquarters, New York, from May 1 through June 30, 1995. The Conventions were signed by the United States on June 26, 1995. I transmit also for the information of the Senate, the report of the Department of State with respect to the Conventions.

The Grains Trade Convention, 1995, replaces the Wheat Trade Convention, 1986, and maintains the framework for international cooperation in grains trade matters. It also continues the existence of the International Grains Council.

The Food Aid Convention, 1995, replaces the Food Aid Convention, 1986, and renews commitments of donor member states to provide minimum annual quantities of food aid to developing countries.

The International Grains Council and the Food Aid Committee granted the United States (and other countries) a 1-year extension of time in which to deposit its instruments of ratification, and have permitted the United States in the meantime to continue to participate in the organizations.

It is my hope that the Senate will give prompt and favorable consideration to the two Conventions, and give its advice and consent to ratification so that ratification by the United States can be effected and instruments of ratification deposited at the earliest possible date.

WILLIAM J. CLINTON.

## LETTER OF SUBMITTAL

---

DEPARTMENT OF STATE,  
*Washington, July 3, 1996.*

The PRESIDENT,  
*The White House.*

THE PRESIDENT: I have the honor to submit to you, with a view to transmission to the Senate for advice and consent to ratification, the Grains Trade Convention and Food Aid Convention constituting the International Grains Agreement, 1995. The Conventions were open for signature at the United Nations Headquarters, New York, from May 1 through June 30, 1995. They were signed for the United States on June 26, 1995.

The International Grains Agreement consists of two legal instruments: the Grains Trade Convention, 1995, and the Food Aid Convention, 1995. The Conventions were adopted at meetings of the International Wheat Council and Food Aid Committee at London on December 7 and 5, 1994, respectively. They entered into force on July 1, 1995. The Conventions will remain in force until June 30, 1998.

The Grains Trade Convention, 1995, replaces the Wheat Trade Convention, 1986. The Food Aid Convention, 1995, replaces the Food Aid Convention, 1986. From December 1993 to December 1994, the United States and other governments party to these Conventions engaged in negotiations to draft the new texts of both of these Conventions in a manner that would, inter alia, redistribute voting rights and assessments to reflect more accurately changing patterns of world trade.

The Grains Trade Convention, 1995, is designed to reinforce international cooperation in grain matters between exporting and importing members, serving as a forum for the discussion on a regular basis of world grain matters. The Convention contains no economic provisions placing strictures on parties regarding pricing or marketing, a position strongly supported by the U.S. Government. A major purpose of the Grains Trade Convention is to continue to collect, analyze and disseminate information on market conditions and on developments concerning the improvement and expansion of trade, utilization, and storage and transportation of grain, especially in developing countries.

The Grains Trade Convention improves upon the Wheat Trade Convention by strengthening its informational activities. For example, the scope of the new Convention has been broadened to permit increased attention to grains other than wheat (i.e., barley, maize, millet, oats, rye and sorghum). Such a change benefits the United States because the United States has relied heavily on the informa-

tion generated regarding wheat and it now finds similar information on other grains very useful.

The Food Aid Convention, 1995, continues the commitment of the donor member states to provide minimum annual quantities of food assistance in the form of edible grain—principally wheat, rice and coarse grains—and provides an international forum for overseeing food assistance. The Convention commits the United States to donate or sell on concessional terms at least 2.5 million metric tons of food aid annually. This figure represents a significant reduction from the U.S. commitment of 4.47 million metric tons in the Food Aid Convention, 1986, due to current and anticipated U.S. budget cuts during the Convention's three-year duration. The contributions of the United States under this Convention are made up of commodities sold or donated under the Agriculture Trade and Development Act of 1954, as amended ("P.L. 480") or through other bilateral aid programs. The amount of the new U.S. food aid commitment is within the current level of authorized food aid programs. The Food Aid Convention ensures burden-sharing among food aid donors. A floor for food aid assistance of 7.6 million metric tons per year has been established, over the three-year term of the Convention.

While the basic principles and objectives of the Food Aid Convention, 1995, have not changed from those of the Food Aid Convention, 1986, there are several innovations in the new Convention, including:

- the list of grains whose supply as food aid is permissible has been broadened to include grain legumes and beans;

- the formula under which contributions of foods other than wheat can be evaluated in terms of their "wheat equivalents" is more flexible, reflecting long-term changes in the export price relationship between wheat and such other foods as rice.

These changes are beneficial because they encourage new donors to provide additional food aid.

Consistent with the informational and forum role of the new International Grains Agreement, and in order to encourage participation and continuity of activities, the new texts provide for future extensions of up to two years.

The International Grains Council and the Food Aid Committee have granted the United States (and other countries) an extension until June 30, 1996, to deposit instruments of ratification to become a party to these Conventions. The Council and Committee are expected to make decisions allowing for a further extension. The Secretary of Agriculture joins me in recommending that these Conventions be transmitted to the Senate for its early and favorable consideration.

Respectfully submitted,

STROBE TALBOTT.

Enclosure: As stated.

INTERNATIONAL GRAINS AGREEMENT, 1995

PREAMBLE

THE SIGNATORIES TO THIS AGREEMENT

Considering that the International Wheat Agreement, 1949 was revised, renewed, updated or extended on successive occasions leading to the conclusion of the International Wheat Agreement, 1986,

Considering that the provisions of the International Wheat Agreement, 1986, consisting of the Wheat Trade Convention, 1986, on the one hand, and the Food Aid Convention, 1986, on the other, as extended, will expire on 30 June 1995, and that it is desirable to conclude an agreement for a new period,

Have agreed that the International Wheat Agreement, 1986 shall be updated and renamed the International Grains Agreement, 1995, which shall consist of two separate legal instruments

- (a) the Grains Trade Convention, 1995 and
- (b) the Food Aid Convention, 1995,

and that each of these two Conventions, or either of them as appropriate, shall be submitted for signature and ratification, acceptance or approval, in conformity with their respective constitutional or institutional procedures, by the Governments concerned.

(1) To facilitate the achievement of the objectives in Article 1, make possible a fuller exchange of views at Council sessions, and provide information on a continuing basis to serve the general interest of members, arrangements shall be made for regular reports and exchange of information, and also special studies, as appropriate, covering grains, focusing primarily upon the following:

The Committee shall have the functions specified in Article 16.

The Market Conditions Committee, in so informing the Executive Committee, shall give particular regard to those circumstances which threaten to affect the interests of members.

(2) The Executive Committee shall meet within ten working days to review such developments and, if it deems it appropriate, request the Chairman of the Council to convene a session of the Council to consider the situation.

#### ARTICLE 5

##### Commercial purchases and special transactions

(1) A commercial purchase for the purposes of this Convention is a purchase as defined in Article 2 which conforms to the usual commercial practices in international trade and which does not include those transactions referred to in paragraph (2) of this Article.

(2) A special transaction for the purposes of this Convention is one which includes features introduced by the Government of a member concerned which do not conform to usual commercial practices. Special transactions include the following:

- (a) sales on credit in which, as a result of government intervention, the interest rate, period of payment, or other related terms do not conform to the commercial rates, periods or terms prevailing in the world market;
- (b) sales in which the funds for the purchase of grain are obtained under a loan from the Government of the exporting member tied to the purchase of grain;
- (c) sales for currency of the importing member which is not transferable or convertible into currency or goods for use in the exporting member;
- (d) sales under trade agreements with special payments arrangements which include clearing accounts for settling credit balances bilaterally through the exchange of goods, except where the exporting member and the importing member concerned agree that the sale shall be regarded as commercial;
- (e) barter transactions:
  - (i) which result from the intervention of Governments where grain is exchanged at other than prevailing world prices, or
  - (ii) which involve sponsorship under a government purchase programme, except where the purchase of grain results from a barter transaction in which the country of final destination was not named in the original barter contract;

- (f) a gift of grain or a purchase of grain out of a monetary grant by the exporting member made for that specific purpose;
  - (g) any other categories of transactions, as the Council may prescribe, that include features introduced by the Government of a member concerned which do not conform to usual commercial practices.

#### ARTICLE 6

##### Guidelines relating to concessional transactions

- (1) Members undertake to conduct any concessional transactions in grains in such a way as to avoid harmful interference with normal patterns of production and international commercial trade.
- (2) To this end both supplying and recipient members shall undertake appropriate measures to ensure that concessional transactions are additional to commercial sales which could reasonably be anticipated in the absence of such transactions, and would increase consumption or stocks in the recipient country. Such measures shall, for countries which are members of the Food and Agriculture Organization (FAO), be consistent with the FAO Principles of Surplus Disposal and Guiding Lines and the consultative obligations of FAO members, and may include the requirement that a specified level of commercial imports of grains agreed with the recipient country be maintained on a global basis by that country. In establishing or adjusting this level, full regard shall be had to the commercial import levels in a representative period, to recent trends in utilization and imports, and to the economic circumstances of the recipient country, including, in particular, its balance-of-payments situation.
- (3) Members, when engaging in concessional export transactions, shall consult with exporting members whose commercial sales might be affected by such transactions to the maximum possible extent before such arrangements are concluded with recipient countries.
- (4) The Secretariat shall periodically report to the Council on developments in concessional transactions in grains.

## ARTICLE 7

## Reporting and recording

- (1) Members shall provide regular reports, and the Council shall maintain records for each crop year, showing separately commercial and special transactions, of all shipments of grain by members and all imports of grain from non-members. The Council shall also maintain, to the extent possible, records of all shipments between non-members.
- (2) Members shall provide, as far as possible, such information as the Council may require concerning their grain supply and demand, and report promptly all changes in their national grain policies.
- (3) For the purposes of this Article:
  - (a) members shall send to the Executive Director such information concerning the quantities of grain involved in commercial sales and purchases and special transactions as the Council within its competence may require, including:
    - (i) in relation to special transactions, such detail of the transactions as will enable them to be classified in accordance with Article 5;
    - (ii) such information as may be available as to the type, class, grade and quality of the grains concerned;
  - (b) any member when exporting grain shall send to the Executive Director such information relating to their export prices as the Council may require;
  - (c) the Council shall obtain regular information on currently prevailing grain transportation costs, and members shall report such supplementary information as the Council may require.
- (4) In the case of any grain which reaches the country of final destination after resale in, passage through, or transshipment from the ports of, a country other than that in which it originated, members shall to the maximum extent possible make available such information as will enable the shipment to be entered in the records as a shipment between the country of origin and the country of final destination. In the case of a resale, the provisions of this paragraph shall apply if the grain originated in the country of origin during the same crop year.
- (5) The Council shall make rules of procedure for the reports and records referred to in this Article. Those rules shall prescribe the frequency and the manner in which those reports shall be made and shall prescribe the duties of members with regard thereto. The Council shall

also make provision for the amendment of any records or statements kept by it, including provision for the settlement of any dispute arising in connection therewith. If any member repeatedly and unreasonably fails to make reports as required by this Article, the Executive Committee shall arrange consultations with that member to remedy the situation.

#### ARTICLE 8

##### Disputes and complaints

- (1) Any dispute concerning the interpretation or application of this Convention which is not settled by negotiation shall, at the request of any member which is a party to the dispute, be referred to the Council for decision.
- (2) Any member which considers that its interests as a party to this Convention have been seriously prejudiced by actions of any one or more members affecting the operation of this Convention may bring the matter before the Council. In such a case, the Council shall immediately consult with the members concerned in order to resolve the matter. If the matter is not resolved through such consultations, the Council shall consider the matter further and may make recommendations to the members concerned.

(4) If the Council decides that a significant shift in world grain trading patterns has occurred it shall review, and may adjust, the votes of members. Such adjustments shall be regarded as amendments to this Convention, and shall be subject to the provisions of Article 32, except that an adjustment of votes may take effect only at the beginning of a fiscal year. # ARTICLE 12

## Determination of exporting and importing members and distribution of their votes

(1) At the first session held under this Convention, the Council shall establish which members shall be exporting members and which members shall be importing members for the purposes of this Convention. In so deciding, the Council shall take account of the grain trading patterns of those members and of their own views.

(2) As soon as the Council has determined which members shall be exporting and which shall be importing members under this Convention, the exporting members, on the basis of their votes under Article 11, shall divide their votes among them as they shall decide, subject to the conditions laid down in paragraph (3) of this Article, and the importing members shall similarly divide their votes.

(3) For the purposes of the allocation of votes under paragraph (2) of this Article, the exporting members shall together hold 1,000 votes, and the importing members shall together hold 1,000 votes. (8) Any exporting member may authorize any other exporting member, and any importing member may authorize any other importing member, to represent its interests and to exercise its votes at any meeting or meetings of the Council. Satisfactory evidence of such authorization shall be submitted to the Council.

(9) If at any meeting of the Council a member is not represented by an accredited delegate and has not authorized another member to exercise its votes in accordance with paragraph (8) of this Article, or if at the date of any meeting any member has forfeited, has been deprived of, or has recovered its votes under any provisions of this Convention, the total votes to be exercised by the exporting members at that meeting shall be adjusted to a figure equal to the total of votes to be exercised at that meeting by the importing members and redistributed among exporting members in proportion to their votes.

#### ARTICLE 14

##### Decisions

(1) Except where otherwise specified in this Convention, decisions of the Council shall be by a majority of the votes cast by the exporting members and a majority of the votes cast by the importing members, counted separately.

(2) Without prejudice to the complete liberty of action of any member in the determination and administration of its agricultural and price policies, each member undertakes to accept as binding all decisions of the Council under the provisions of this Convention.

The votes of the importing members on the Executive Committee shall be divided among them as they shall decide, provided that no such importing member shall have more than 40 per cent of the total votes of those importing members.

(4) The Council shall prescribe rules of procedure regarding voting in the Executive Committee and may make such other provision regarding rules of procedure in the Executive Committee as it thinks fit. - (b) in the event of the seat of the Council being moved from the United Kingdom, or
- (c) in the event of the Council ceasing to exist.

(4) In the event of the seat of the Council being moved from the United Kingdom, the Government of the member in which the seat of the Council is situated shall conclude with the Council an international agreement relating to the status, privileges and immunities of the Council, its Executive Director, its staff and representatives of members at meetings convened by the Council.

(1) The expenses of delegations to the Council and of representatives on its Committees and working groups shall be met by their respective Governments. The other expenses necessary for the administration of this Convention shall be met by annual contributions from all members. The contribution of each member for each fiscal year shall be in the proportion which the number of its votes in the Annex bears to the total of the votes of members in the Annex, as adjusted under Article 11 to reflect the membership of the Convention at the time when the budget for that fiscal year is adopted.

(2) At its first session after this Convention comes into force, the Council shall approve its budget for the fiscal year ending 30 June 1996, and assess the contribution to be paid by each member.

(3) The Council shall, at a session during the second half of each fiscal year, approve its budget for the following fiscal year and assess the contribution to be paid by each member for that fiscal year.

(4) The initial contribution of any member acceding to this Convention under paragraph (2) of Article 27 shall be assessed on the basis of the votes agreed with the Council as a condition for its accession, and the period of the current fiscal year remaining at the time of accession, but the assessments of contributions to be paid by the other members in that fiscal year shall not be altered.

(5) Contributions shall be payable immediately upon assessment.

(6) If, at the end of six months following the date on which its contribution is due in accordance with paragraph (5) of this Article, a member has not paid its full contribution, the Executive Director shall request the member to make payment as quickly as possible. If, at the expiration of six months after the request of the Executive Director, the member has still not paid its contribution, its voting rights in the Council and in the Executive Committee shall be suspended until such time as it has made full payment of the contribution.

(7) A member whose voting rights have been suspended under paragraph (6) of this Article shall not be deprived of any of its other rights or relieved of any of its obligations under this Convention, unless the Council so decides by special vote. It shall remain liable to pay its contribution and to meet any other of its financial obligations under this Convention.

(8) The Council shall, each fiscal year, publish an audited statement of its receipts and expenditures in the previous fiscal year.

(9) The Council shall, prior to its dissolution, provide for the settlement of its liabilities and the disposal of its records and assets.

## ARTICLE 22

### Economic provisions

The Council may, at an appropriate time, examine the possibility of the negotiation of a new international agreement or convention with economic provisions, and report to members, making such recommendations as it deems appropriate. The Council may, when it is judged that such a negotiation could be successfully concluded, request the Secretary-General of the United Nations Conference on Trade and Development to convene a negotiating conference.

## PART III - FINAL PROVISIONS

## ARTICLE 23

### Depositary

(1) The Secretary-General of the United Nations is hereby designated as the depositary of this Convention.

(2) The depositary shall notify all signatory and acceding Governments of each signature, ratification, acceptance, approval, provisional application of, and accession to, this Convention, as well as each notification and notice received under Articles 29 and 32.

ARTICLE 24

Signature

This Convention shall be open for signature at United Nations Headquarters from 1 May 1995 until and including 30 June 1995 by the Governments listed in the Annex.

ARTICLE 25

Ratification, acceptance, approval

(1) This Convention shall be subject to ratification, acceptance or approval by each signatory Government in accordance with its respective constitutional procedures.

(2) Instruments of ratification, acceptance or approval shall be deposited with the depositary not later than 30 June 1995. The Council may, however, grant one or more extensions of time to any signatory Government which is unable to deposit its instrument by that date. The Council shall inform the depositary of all such extensions of time.

ARTICLE 26

Provisional application

Any signatory Government and any other Government eligible to sign this Convention, or whose application for accession is approved by the Council, may deposit with the depositary a declaration of provisional application. Any Government depositing such a declaration shall provisionally apply this Convention in accordance with its laws and regulations and be provisionally regarded as a party thereto.

ARTICLE 27

Accession

(1) Any Government listed in the Annex may accede to the present Convention until and including 30 June 1995, except that the Council may grant one or more extensions of time to any Government which has not deposited its instrument by that date.

(2) This Convention shall be open for accession after 30 June 1995 by the Governments of all States upon such conditions as the Council considers appropriate. Accession shall be effected by the deposit of an instrument of accession with the depositary. Such instruments of

accession shall state that the Government accepts all the conditions established by the Council.

(3) Where, for the purposes of the operation of this Convention, reference is made to members listed in the Annex, any member the Government of which has acceded to this Convention on conditions prescribed by the Council in accordance with this Article shall be deemed to be listed in the Annex.

#### ARTICLE 28

##### Entry into force

(1) This Convention shall enter into force on 1 July 1995 if instruments of ratification, acceptance, approval or accession, or declarations of provisional application have been deposited not later than 30 June 1995 on behalf of Governments listed in part A of the Annex holding, at least, 88 per cent of the total votes set out in part A of the Annex.

(2) If this Convention does not enter into force in accordance with paragraph (1) of this Article, the Governments which have deposited instruments of ratification, acceptance, approval or accession, or declarations of provisional application, may decide by mutual consent that it shall enter into force between themselves.

#### ARTICLE 29

##### Withdrawal

Any member may withdraw from this Convention at the end of any fiscal year by giving written notice of withdrawal to the depositary at least ninety days prior to the end of that fiscal year, but shall not thereby be released from any obligations under this Convention which have not been discharged by the end of that fiscal year. The member shall simultaneously inform the Council of the action it has taken.

#### ARTICLE 30

##### Exclusion

If the Council finds that any member is in breach of its obligations under this Convention and decides further that such breach significantly impairs the operation of this Convention, it may, by special vote, exclude such member from the Council. The Council shall immediately notify the depositary of any such decision. Ninety days

after the date of the Council's decision, that member shall cease to be a member of the Council.

#### ARTICLE 31

##### Settlement of accounts

(1) The Council shall determine any settlement of accounts which it finds equitable with a member which has withdrawn from this Convention or which has been excluded from the Council, or has otherwise ceased to be a party to this Convention. The Council shall retain any amounts already paid by such member. Such member shall be bound to pay any amounts due from it to the Council.

(2) Upon termination of this Convention, any member referred to in paragraph (1) of this Article shall not be entitled to any share of the proceeds of the liquidation or the other assets of the Council; nor shall it be burdened with any part of the deficit, if any, of the Council.

#### ARTICLE 32

##### Amendment

(1) The Council may by special vote recommend to members an amendment of this Convention. The amendment shall become effective 100 days after the depositary has received notifications of acceptance from exporting members which hold two thirds of the votes of the exporting members and by importing members which hold two thirds of the votes of the importing members, or on such later date as the Council may have determined by special vote. The Council may fix a time within which each member shall notify the depositary of its acceptance of the amendment and, if the amendment has not become effective by such time, it shall be considered withdrawn. The Council shall provide the depositary with the information necessary to determine whether the notifications of acceptance received are sufficient to make the amendment effective.

(2) Any member on behalf of which notification of acceptance of an amendment has not been made by the date on which such amendment becomes effective shall as of that date cease to be a party to this Convention, unless such member has satisfied the Council that acceptance could not be secured in time owing to difficulties in completing its constitutional procedures and the Council decides to extend for such member the period fixed for acceptance. Such member shall not be bound by the amendment before it has notified its acceptance thereof.

ARTICLE 33

Duration, extension and termination

- (1) This Convention shall remain in force until 30 June 1998, unless extended under paragraph (2) of this Article, or terminated earlier under paragraph (3) of this Article, or replaced before that date by a new agreement or convention negotiated under Article 22.
- (2) The Council may, by special vote, extend this Convention beyond 30 June 1998 for successive periods not exceeding two years on each occasion. Any member which does not accept such extension of this Convention shall so inform the Council at least thirty days prior to the extension coming into force. Such a member shall cease to be a party to this Convention from the beginning of the period of extension, but it shall not thereby be released from any obligations under this Convention which have not been discharged prior to that date.
- (3) The Council may at any time decide, by special vote, to terminate this Convention with effect from such date and subject to such conditions as it may determine.
- (4) Upon termination of this Convention, the Council shall continue in being for such time as may be required to carry out its liquidation and shall have such powers and exercise such functions as may be necessary for that purpose.
- (5) The Council shall notify the depositary of any action taken under paragraph (2) or paragraph (3) of this Article.

## PART II - MAIN PROVISIONS

### ARTICLE III

#### Contributions of members

(1) The members of this Convention agree to contribute to developing countries grains as food aid, suitable for human consumption and of an acceptable type and quality, or the cash equivalent thereof, in the minimum annual amounts specified in paragraph (4) below. In supplying grain under this Convention, priority is to be given to countries or territories with food import needs which are classified by the Development Assistance Committee of the OECD as least developed countries (LDCs), other low-income countries (LICs) or lower middle-income countries (LMICs).

(2) For the purposes of paragraph (1) of this Article, "grain" or "grains" means wheat, barley, maize, millet, oats, rye, sorghum and rice, or the products (including products of primary and secondary processing) derived therefrom, and also pulses, subject to the provisions of paragraph (3) of this Article, and any other type of grain or grain product, suitable for human consumption and of an acceptable type and quality, that the Committee may decide.

(3) At the request of recipient countries, donors may provide limited quantities of pulses against their obligations under this Convention, provided these are of an acceptable type and quality and are suitable for human consumption. The Committee shall establish a Rule of Procedure to determine the maximum percentage of the wheat equivalent of members' minimum annual contributions, as set out in paragraph (4) of this Article, which may be provided in the form of pulses.

(4) The minimum annual contribution, in wheat equivalent, of each member towards the achievement of the objective of Article I is as follows, subject to paragraph (9) of this Article:

<u>Member</u>	<u>Tonnes</u>
Argentina	35 000
Australia	300 000
Canada	400 000
European Community and its member States	1 755 000
Japan	300 000
Norway	20 000
Switzerland	40 000
United States of America	2 500 000

(5) For the purposes of the operation of this Convention, any member which has acceded to this Convention pursuant to paragraph (2) of Article XX shall be deemed to be listed in paragraph (4) of this Article together with its minimum contribution as determined under the provisions of Article XX.

(6) Contributions in the form of grains shall be placed in a f.o.b. forward position by members. However, donors are encouraged, as appropriate, to bear the costs of transporting their grain contributions under this Convention beyond the f.o.b. stage, especially in emergency situations or in the case of shipments to low-income, food deficit countries. Due reference to the payment of such costs shall be made in any review of the performance of members in this Convention.

(7) Cash contributions under subparagraph (b) of Article IV:

- (a) shall be used, as far as possible, to buy grain from developing countries. Preference shall be given to developing members of the Grains Trade and Food Aid Conventions, with first priority to developing members of the Food Aid Convention. However, in all transactions resulting from cash contributions, special regard shall be had, when deciding on a source of supply, to the quality of the grain, the c.i.f. price advantages of using that particular supplier, the possibilities of speedy delivery to the recipient country and the specific requirements of the recipient country;
- (b) shall not normally be made to purchase grain which is of the same type that the country that is the source of supply has received as bilateral or multilateral food aid in the same year as the purchase, or in a previous year if the grain then received is still being used.

(8) To the maximum extent possible, contributions shall be made by members on a forward planning basis, so that recipient countries may be able to take account, in their development programmes, of the likely flow of food aid they will receive during each year of this Convention. Furthermore, members should, to the extent possible, indicate in advance

the amount of their contributions to be made in the form of gifts, and the grant element of any aid which is not in the form of gifts.

(9) If a member is unable to provide the amount specified in paragraph (4) of this Article in a particular year, the unfulfilled amount shall be added to its amount in the following year, unless the Committee decides otherwise owing to high transport costs.

(10) Members shall provide regular and timely reports to the Committee on the amount, content, channelling and terms of their contributions under this Convention.

#### ARTICLE IV

##### Terms of food aid contributions

Food aid under this Convention may be supplied on any of the following terms:

- (a) gifts of grain;
- (b) gifts or grants of cash to be used to purchase grain for the recipient country;
- (c) sales of grain for the currency of the recipient country which is not transferable and is not convertible into currency or goods and services for use by the donor members; <sup>1/</sup>
- (d) sales of grain on credit, with payment to be made in reasonable annual amounts over periods of 20 years or more and with interest at rates which are below commercial rates prevailing in world markets; <sup>2/</sup>

on the understanding that such aid shall be supplied to the maximum extent possible by way of gifts, especially in the case of least developed countries, low per capita income countries and other developing countries in serious economic difficulties.

---

<sup>1/</sup> Under exceptional circumstances an exemption of not more than 10 per cent may be granted. This limitation may be waived for transactions which are to be used for the expansion of economic development activity in the recipient country, provided that the currency of the recipient country is not transferable or convertible in less than 10 years.

<sup>2/</sup> The credit sales agreement may provide for payment of up to 15 per cent of principal upon delivery of the grain.

ARTICLE V

Channelling of contributions

- (1) Members may, in respect of their contributions under this Convention, specify a recipient country or countries.
- (2) Members may make their contributions bilaterally or through intergovernmental organizations and/or non-governmental organizations.
- (3) Members shall give full consideration to the advantages of directing a greater proportion of food aid through multilateral channels, in particular the World Food Programme.

ARTICLE VI

Wheat equivalents

- (1) For the purposes of this Convention, all contributions under Article III shall be evaluated in terms of their wheat equivalent. The evaluation shall take account, where appropriate, of the grain content of grain products, and the commercial value of the contribution relative to wheat.
- (2) Contributions of rice shall be evaluated in terms of wheat equivalent in accordance with the international export price relationship between rice and wheat. The Committee shall establish a Rule of Procedure for the annual determination of the wheat equivalent of rice.
- (3) Contributions of cash under subparagraph (b) of Article IV shall be evaluated at prevailing international market prices of wheat. The Committee shall establish a Rule of Procedure for the annual determination of the "prevailing international market price".
- (4) The Committee shall establish Rules of Procedure for the determination of the wheat equivalent of contributions made in forms other than wheat, rice or cash.

ARTICLE VII

Impact on trade and agricultural production,  
and conduct of aid transactions

- (1) Members undertake to conduct all aid transactions under this Convention in such a way as to avoid harmful interference with normal patterns of production and international commercial trade.

- (2) Members shall ensure in particular:
  - (a) that the provision of international food aid is not tied directly or indirectly to commercial exports of agricultural products to recipient countries;
  - (b) that international food aid transactions, including bilateral food aid which is monetized, shall be carried out in a manner consistent with the FAO "Principles of Surplus Disposal and Consultative Obligations" including, where appropriate, the system of Usual Marketing Requirements (UMRs).
- (3) Members shall, as appropriate, act in accordance with the current guidelines and criteria for food aid, as approved by the governing body of the World Food Programme.

#### ARTICLE VIII

##### Special provision for exceptional needs

- (1) The Committee shall keep the food situation in developing countries under regular review.
- (2) If it appears that, because of a substantial food production shortfall, or other circumstances, a particular country, region or regions is faced with exceptional food needs, the Committee shall consider the matter. The Committee may recommend that members should respond to the situation by increasing the amount of food aid available.

#### ARTICLE IX

##### Food Aid Committee

- (2) The membership of the Committee shall consist of all parties to this Convention.
- (3) The Committee shall appoint a Chairman and a Vice-Chairman.

#### ARTICLE X

##### Powers and functions of the Committee

- (1) The Committee shall keep under review the way in which the obligations undertaken under this Convention have been fulfilled.
- (2) The Committee shall exchange information on a regular basis on the functioning of the food aid arrangements under this Convention.
- (3) The Committee may receive information from recipient countries and consult with them.
- (4) The Committee shall issue reports as necessary.
- (5) The Committee shall establish such Rules of Procedure as are necessary to carry out the provisions of this Convention.
- (6) In addition to the powers and functions specified in this Article, the Committee shall have such other powers and perform such other functions as are necessary to carry out the provisions of this Convention.

#### ARTICLE XI

##### Seat, sessions and quorum

- (1) The seat of the Committee shall be in London.
- (2) The Committee shall meet at least twice a year in conjunction with the statutory sessions of the International Grains Council. The Committee shall meet also at such other times as the Chairman shall decide; or at the request of three members; or as otherwise required by this Convention.
